PILES

Cured Quickly and Without Pain.

There are pile remedies without number, but there is only one cure, and that is the Pyramid Pile Cure, which is in the form of a suppository and is applied directly to the seat of the trouble.

Any physician will leil you that for the proper treatment of Piles nothing can compare with a suppository, whereas the seater number of preparations that are offered to you for the treatment of this disease are lotlons, saives and ointments. Why? Because they are not so expensive an a suppository, which is bound to contain more costly insredients, and which requires special machinery to make it. Moreover, a suppository inserted in the rectum comes is direct contact with the sause of the complaint, and no other form of treatment does so.

Wallace Cookman, Hallerton, P. Q., Canadas, writes: "I have had two surgical operations for piles and they were not a success. After using three boxes of Pyramid Pile Cure I feel as though I never had alse, and they have afflicted me for twenty, whe years."

REPUBLICANS SHY OF RANK AND FILE.

New "Harmony" Organization Is Causing the Expected Amount of Trouble.

BEARS BRAND OF KERENS.

Prominent Organizers Are Characterized as Sore-Heads, and State Newspapers Call Them Political Nonentities.

Republican papers and politicians of the State are spending their odd space and moments these days in putting a quietus on the newly organized Rank and File Republican Club of Missouri, Indications are that the affair has about reached the zenith of its glory and will pass away with other abortive attempts to put down the success of the anti-Kerns movement. C. C. Bell, the president and chief or-ganizer of the Rank and Filers, has come in for a chief share of the criticism There are two Republican papers in Booneville from where he comes. One of them, the Central Missourian, has supported him in most of his ambitions. Both of them now take occasion to express their sentiments on his new-fiyer in poli-

The Missourian recalls the fact that it has been friendly to him in the past, but that the new organization of "renegades and sore-heads" bodes no good for the party, and that Mr. Bell might as well make up his mind to stop right where he

has begun. Editor Overshiner of the Cooper County Republican remarks that he was "bunkoed" into attending the meeting of county chairmen and secretaries at Clayton, and that he did not intend to be taken by the gold-brick artists who originated the Rank and Filers. Attention is also called to the fact that Mr. Bell has never been noted for his success in getting on a delegation from Cooper County, and until he could accomplish this desirable end he should be silent outside the

ty, and until he could accomplish this desirable end he should be silent outside the county.

That the old Kerens adherents, at least some of them, saw a good thing in the Rank and Filers is evident from the affiliations of some of their leaders. Joe Black of Richmond, one of the organizers, is known as the chief Hanna man of the State. He carried a package of Hanna buttons to the last State Convention.

Colonel Odon Guitar of Columbia is another Kerens man who has always been kepi out of conventions by E. A. Remley of Columbia. He thinks that Akins should be put out of business and a fund of \$100,000 raised therefor. A. L. Ganz of Carrollton, another Kerens man in the organization, is chiefly noted for his absence from conventions, State and county. The same is true of his brother, Phil Ganz of Macon, where Doctor E. B. Clements and Bert Nortoni attend to seeing that their own friends get in the band wagon. Federal patronage is thought to have influenced G. W. Martin in favor of the Rank and Filers. His brother was let out of the Post Office in Brookfield. Instead of promoting harmony, the Rank and Fliers have started a muss that threatens to create more trouble than can be put down in a fortnight, though just how much longer it may continue is not known.

known.

In St. Louis some of the prominent Republicans were asked what they thought about harmony. Of course, all of them joined in expressing their firm conviction that harmony was the real thing. Then, when the purposes of the new organization were sprung, they suddenly and civilly froze to their chairs. They said that the best way to promote harmony was to work through the regular party organization and carry primaries which would show the mettle of every malcontent.

The Sheriff's office was at once notified and Quigley was taken back to jall. He has almost recovered from his wound. Quigley received the gunshot wound about four weeks ago, it is alleged, in an attempt to place a saloonkeeper in an ice-

He escaped, had his wound dressed and was captured several days later. The nature of his wound at that time would not allow his removal to the cells, and he was placed in one of the wards.

Several days after his capture he succeeded in escaping from the hospital through a side door. Coming out of the door he was recognized by two friends of Kelly, who had seen him in the observation ward.

Washington, Dec. 29.-President Gompere of the American Federation of Labor, in an editorial in the organ of the Federation this month, strongly advises union

"We have advised and shall continue to advise our fellow-workmen to resist reductions in wages by every lawful means within their power, for, as we have said before, it is better to resist and lose than not to resist at all."

"Let workmen complacently accept reductions in their wages and it will be an invitation to repeat the reduction at will, intensifying the depression and provoking an industrial crisis; forcing down the workers in the econom c and social scale and bringing on fearful poverty, misery and degradation.

"Resistance on the part of labor to reduction of wages will check this to a great degree and at least demonstrate to the ignorant and short-sighted employers that such a course is exceedingly expensive to them and will prevent its repetition.
